

VENT VENOM  
ON ENEMY

And Burn Sir William H. Lever's Country Residence in England

VALUABLE PAINTINGS  
WERE DESTROYED

Arson Squad Left Message  
Accusing Him of  
Disloyalty

London, July 8.—An arson squad of militant suffragettes set fire to and caused the destruction of the country residence of Sir William H. Lever, founder of the Liverpool school of tropical medicine, early today. The mansion, which was known as The Bungalow, was situated at Rivington, near Horwich, Lancashire. It was not occupied by the family, but contained valuable paintings and other precious objects, all of which were consumed by the flames.

## MISS SYLVIA RE-ARRESTED.

Because She Failed to Appear When Summoned.

London, July 8.—Miss Sylvia Pankhurst was arrested, together with several other suffragettes, at a meeting at Bromley last night.

A warrant had been issued for her arrest because she had failed to appear at Bow street police court last Saturday morning to answer a summons charging her with inciting a crowd to raid the residences of the ministers in Downing street on June 29.

Miss Zelle Emerson, the American suffragette, who was released from Holloway jail last April after her case had aroused international agitation, was among those arrested, according to the report. But if she was taken into custody by the police there is reason to believe that she was liberated. The police say that Miss Pankhurst was the only suffragette detained.

RECEIVERSHIP CASE  
PUT OVER ONE WEEK

When Arguments on the Southern New England's Demurrer Will Be Heard.

Boston, July 8.—The receivership proceedings against the Southern New England railway, which were instituted by John Marsh, a railroad construction contractor, were today postponed until Tuesday next, when arguments on the defendant corporation's demurrer will be heard in supreme court. The postponement was granted at the request of the railway's attorneys.

## SERVIAN RETREAT HARRASSED.

Large Bulgarian Force Said To Have Made Appearance.

London, July 8.—The report of the appearance of a large Bulgarian force at Vranja, threatening the Servian line of retreat, has been confirmed from Sofia.

Still more significant, as tending to confirm the belief that the Servians are suffering defeat, is the announcement from Belgrade that only meagre reports are being received from the Servian army headquarters and that the government has decided to publish reports only on alternate days. In addition, a rigorous censorship on the newspapers is being enforced.

The Servian wounded describe the battles as almost inhuman in their ferocity, the men throwing away their firearms and using their bayonets as daggers. Whatever the policy of the European powers may be, little is now heard of attempts to stop the war. The ambassadorial conference met in London again yesterday but apparently did little else than discuss the boundaries of Albania. Meanwhile Roumania and Turkey give signs that they will not long be idle spectators.

News of the fighting continues to be of a contradictory character. It is almost invariably from official sources in the respective capitals; no independent testimony is available.

This applies equally to the struggle between the Greeks and the Bulgarians and between the Greeks and Bulgarians.

A despatch from Saloniki reports that the Greeks have occupied Demirhisar and Trumitza, and, according to the most likely information, the Bulgarian general, Ivanoff, has been slowly retreating before the superior Greek forces northward since his army was weakened by the departure of his right wing to attack Krivopalok.

It should be noted that another despatch asserts that General Ivanoff, by an unexpected attack, scattered the Greek army of 80,000, commanded by King Constantine, and occupied Nigrita and other points on the Greek line.

It is possible that both reports are correct and that that crediting victory to General Ivanoff has reference to a later date, after the Bulgarian commander was reinforced.

An interesting detailed report from Greek official sources of last week's operations describes how the Bulgarians, by incessant labor, had transformed Kilkish into another Plevna with a surprising extent of trenches, guns and defenses, and asserts that the Greeks by their successful advance presented the execution of a plan for a Bulgarian attack on Saloniki.

David McDonald and Bert Mervin have returned home, after spending several days with friends in Boston.

## SHORT TIME IN BURLINGTON.

Lumber Mills and American Woolen Co.'s Mills Reduce Hours.

Burlington, July 8.—The whistles of all the important lumber mills along the lake front blew at 3:30 o'clock yesterday afternoon and work ceased for the day. This means that the 600 or more employees will be put on three-quarters time for an indefinite period and that the payroll will be decreased by one-fourth. Dull business conditions are given as the reason for the shorter hours by the mill operators, and they cannot say when full time will be resumed. Their pessimistic tone would indicate that they do not see relief in sight.

This is the first time in more than twenty years that the mills have gone on short time during the summer, as this is usually the busy season. Various excuses are put forth to explain the situation, and one is that the tie-up on account of the strike a year ago sent the local firms' customers to other firms and it is impossible to get them back. Lack of building is the reason given by most of the lumbermen. The mills affected are the Shepard & Morse Lumber company, J. R. Booth Lumber company, and Robinson Edwards Lumber company.

The plant of the American Woolen company, which during the busy times has a payroll of more than \$20,000 per week, is closed for a few days. For the past month the mill has only been operated four days per week, and yesterday the complete shutdown occurred. Those in charge say that they hope to be in operation in a few days, and at that time the mill will be in full operation. This statement is received with skepticism by many.

## SUES RUTLAND RAILROAD.

Columbian Marble Company Receiver Seeks to Recover \$14,000.

Rutland, July 8.—George C. Underhill of this city, as receiver of the Columbian Marble company, has brought suit against the Rutland Railroad company to recover \$14,000. The action is returnable at the September term of court. Marvella C. Webber and Frank D. White of this city are counsel for the plaintiff.

The Rutland road owns a strip of land 1,000 feet long and 40 wide on the north side of its track adjoining on the south property formerly owned by the Columbian company. The land was leased by the marble company, the agreement being that it was to be improved as payment for the rental. The Columbian company cut down a sand bank, did much grading, built a loading dock and put part of a mill on the railroad land. Since the Columbian company became defunct, the railroad leased the land to the Green Mountain Marble company, which is operating on the land. The Columbian formerly had suit brought to recover the cost of the improvements.

## STATE GOLF TOURNAMENT.

It Will Be Open at Rutland Country Club Links July 31.

Rutland, July 8.—The program was completed yesterday for the 12th annual tournament of the Vermont State Golf association to be held at the links of the Rutland Country club July 31 and August 1 and 2. Entries must be made to the secretary, James A. Merrill of this city, before 6:00 p. m. July 30. The state championship competition is open to amateur members of all Vermont golf clubs. Prizes will be given to the winner, the runner-up, winners of the long and short holes, and the best sixteen to the winner of the second sixteen, for the best gross scores in the qualifying round and for the best gross and net scores in medal play on August 3.

The annual meeting of the association will be held at the clubhouse on July 31 at 5:00 p. m. Dr. E. M. Pond of this city is the president.

The Green Mountain Golf club, presented by the Mount Anthony club of Bennington for annual competition, will be played for during the tournament, four members of each club at the meet being designated to compete.

## TALK OF THE TOWN

Peter Alexander of Patterson Street has been receiving from the Servian army headquarters and that the government has decided to publish reports only on alternate days. In addition, a rigorous censorship on the newspapers is being enforced.

The Servian wounded describe the battles as almost inhuman in their ferocity, the men throwing away their firearms and using their bayonets as daggers. Whatever the policy of the European powers may be, little is now heard of attempts to stop the war. The ambassadorial conference met in London again yesterday but apparently did little else than discuss the boundaries of Albania. Meanwhile Roumania and Turkey give signs that they will not long be idle spectators.

News of the fighting continues to be of a contradictory character. It is almost invariably from official sources in the respective capitals; no independent testimony is available.

This applies equally to the struggle between the Greeks and the Bulgarians and between the Greeks and Bulgarians.

A despatch from Saloniki reports that the Greeks have occupied Demirhisar and Trumitza, and, according to the most likely information, the Bulgarian general, Ivanoff, has been slowly retreating before the superior Greek forces northward since his army was weakened by the departure of his right wing to attack Krivopalok.

It should be noted that another despatch asserts that General Ivanoff, by an unexpected attack, scattered the Greek army of 80,000, commanded by King Constantine, and occupied Nigrita and other points on the Greek line.

It is possible that both reports are correct and that that crediting victory to General Ivanoff has reference to a later date, after the Bulgarian commander was reinforced.

An interesting detailed report from Greek official sources of last week's operations describes how the Bulgarians, by incessant labor, had transformed Kilkish into another Plevna with a surprising extent of trenches, guns and defenses, and asserts that the Greeks by their successful advance presented the execution of a plan for a Bulgarian attack on Saloniki.

David McDonald and Bert Mervin have returned home, after spending several days with friends in Boston.

94 PER CENT  
FAVOR STRIKE

Out of 76,000 Workmen Who Participated in Railroad Vote

RESULT ANNOUNCED  
AT THE CONFERENCE

The Employees of 51 Eastern Railroads Want an Increase of Wages

New York, July 8.—Ninety-four per cent of the members of the Brotherhood of Railroad Trainmen and of the Order of Railway Conductors out of 76,000 who participated in the strike vote in the wage dispute with fifty-one eastern railroads are in favor of a strike. These figures were announced today at a joint meeting of the representatives of the union and the committee of railroad managers.

When the conference convened the Erie railroad announced that it had withdrawn from the proceedings on the ground that it would be unable to meet any advance which might result. This practically invites a strike.

## WANT TO EXTEND STRIKE.

Johannesburg Gold Mines Also Announce They Are Still Out.

Johannesburg, July 8.—Many of the gold miners refuse to return to work. At a meeting held in Union park yesterday afternoon, militant leaders delivered fiery speeches to the 3,000 assembled, and a resolution declaring that the strike was still on and condemning the strike leaders was carried.

Efforts are now being made at Braamfontein to bring out the railway workers. A dispute is on over the actual terms of settlement which General Botha, the premier, and General Smuts, minister of mines, made with the unions. The unionists assert that they insisted that the government provide for the miners whose places were taken by strikebreakers, until new places should be found for them; that General Botha and Smuts agreed to this, but thought it inadvisable to put it in writing, and also that the leaders claimed amnesty for the rioters. General Botha replying that that was a matter for the department of justice, but giving the impression that he favored amnesty.

BURLINGTON GIRL  
DIED OF TETANUS.

Caught Her Foot in Machinery of Motorboat a Week Ago Last Sunday.

Burlington, July 8.—Blanche Lafond, the seven-year-old daughter of Mr. and Mrs. Peter Lafond, died this morning of tetanus at the Mary Fletcher hospital. The girl caught her foot in the machinery of a motorboat a week ago last Sunday was taken to the hospital for treatment. While being carried to the hospital on Sunday the taxicab in which she was being taken then collided with another automobile and the taxicab was overturned. However, the girl was not hurt in that accident.

## MAY BE WANTED IN BARRE.

Wielder of Shears in Winooski Thought to Be Missing Photographer.

Emil Kalliaman, one of the five Finlanders, who are alleged to have figured in a stabbing affray at Winooski Saturday night, is believed to be wanted by the local police. In fact, it is said that officers from the Barre department have been looking for Kalliaman ever since he departed from this city, it is alleged, with a \$125 photographic outfit, the property of a local photographer. Kalliaman was employed to operate a branch studio for the Barre photographer at Barre last long ago, it is said, he left the city with a large camera and other equipment. Since then his whereabouts have been unknown.

According to the Winooski dispatches, Kalliaman was just squeezing through the broken panel of an outside door preparatory to making his escape, when officers interfered and arrested him along with four of his countrymen, one of whom received several stab wounds from a pair of shears. The Winooski officers accused Kalliaman of being the man who wielded the shears and officers here, it is said, are inclined to infer from what they have learned that the shears were purchased in Barre.

In municipal court at Winooski yesterday Kalliaman was sentenced to five months in the house of correction, while others arrested in the fracas were fined either for breach of the peace or for intoxication.

## WILLIAMSTOWN.

The hand will give a concert in the stand next Friday, July 11th.

Misses Carrie and Jennie Thorpe of New Haven, Conn., are in town for a few weeks.

W. M. Carpenter and his sister, Mrs. Edson S. Martin, were in Barre the 6th to attend the funeral of their uncle, Charles D. Carpenter.

Miss Mary Dwinell, who has been with her aunt, Mrs. Lydia C. Bemis, at George Beckett's for several weeks, is visiting her home in Marshfield.

Charles U. Sivright is in Marshfield the 8th to see his brother-in-law, H. E. Hadlock, who is seriously ill, having received a sunstroke one of the hot days last week.

Mrs. Rebekah Simons, son, George, and daughter, Dorothy, are in camp at the Lynde cottage at Berlin pond. They will be joined later by Mr. and Mrs. H. L. Cheney of Northfield.

Some patrons of rural routes need to be reminded that carriers are not required to take loose pennies from mail boxes and that all mail should be stamped when placed in the box.

## SMALLPOX FROM CANADA.

Burlington Woman Comes Down With the Disease.

Burlington, July 8.—There is another case of smallpox in this city, a woman named Barron being the victim. She came to Burlington from Canada a week ago, to work in the Queen City cotton mills at Lakeside, and lives at 59 Harrison avenue, Lakeside. It is probable that she will be taken with an immune attendant to the pest house for treatment.

This is the only case known to exist in the city, and was contracted in Canada. She has no connection with the cases that appeared here in the spring. The members of her family have been vaccinated and quarantined, and the employees of the mill will be immediately vaccinated, or excluded from working there until danger is past. The board of health has taken prompt charge of the situation, and as was the case in the spring, will enforce regulations strictly. The numerous vaccinations made at that time will aid in preventing spread of the disease and no alarm is felt.

The health officials feel less concern over this case than over two cases of a peculiar form of diphtheria which has appeared in the north part of the city. Others may possibly exist. Usually the membrane appears in the throat, but in this form of the disease it develops in the nose. The cases have been mild and have only just been diagnosed. One of the symptoms is bleeding from the nose, and whenever a child has an attack of nosebleed or a bloody discharge from the nose, a physician should be consulted, say the health officials. Although the disease as it has so far appeared is mild, it may occur in serious form in some individuals.

## VETERAN CAVALRYMEN ELECT.

First Vermont Regiment Held Meeting at Gettysburg.

Burlington, July 8.—The 41st annual meeting of the First regiment, Vermont Cavalry association, was held in the headquarters tent in the Vermont camp at Gettysburg. Col. Myron M. Parker of Washington, of Company M, president, occupied the chair. T. S. Peck of Company F was elected acting secretary and George L. McBride of Company L acting treasurer. Major Edwin H. Higley of Company K offered resolutions of condolence to the families of the fallen and others for their kindly assistance in making the reunion at Gettysburg a possibility.

Comrade George L. McBride moved that a committee of three be appointed to elect the president, secretary and treasurer of the association for the ensuing year, and the committee presented the following: For president, Lieut. Barney Decker of Company C; for secretary, Sgt. Seymour H. Wood of Company L; for treasurer, Capt. Henry O. Wheeler of Company A. The report was unanimously accepted.

The vice-presidents were nominated in open meeting, and are as follows: For field and staff, Col. John W. Bennett; Company A, Major Ellis B. Edwards; Company B, Alphonse Barrows; Company C, Mark M. Rice; Company D, D. C. Walker; Company E, Sylvester Snow; Company F, John M. Nash; Company G, Lieut. James Barrett; Company H, Frank Ross; Company I, William Hall; Company L, George L. McBride; Company M, John Aldrich.

The secretary was directed to cast a ballot for the officers, and they were unanimously elected.

Adjutant C. D. Gates moved that the next place of meeting be left to the president, secretary and treasurer, due notice to be given the members.

## ANOTHER STABLE BURNED.

Cause of Fire in Burlington Last Night Is Not Known.

Burlington, July 8.—Burlington's hotel district was threatened by fire last night when W. H. Tupper's lively stable on King street was destroyed by fire. Within one foot of the stable was a three-story wooden building belonging to the Van Ness house, while the entire neighborhood is covered with wooden buildings.

The cause of the fire, which broke out at midnight, is not known. The flames were discovered by Harris Baker and Ernest Mercer, who were walking along the street. They turned in the alarm and assisted William King, who sleeps in the stable, to remove the horses. All the animals, seventeen in number, were released from the barn and turned loose in the street. The wagons also were saved. It was impossible, however, for the firemen to save the building although the fire was confined to that structure by three streams of water.

## NORTHFIELD MAN DROWNED.

Lee Martin Told His Wife to Drive Along; He'd Fish in Dog River.

Northfield, July 8.—Lee Martin, who lived on the Little Northfield road, was drowned in Dog river, opposite the fair ground, and near E. W. Gold's on Saturday afternoon. With his wife he started to drive to the village, but left her at the Harlow bridge, saying that he would fish down the river and join her later. Coming to a deep hole the heat of the river, which was very high, he took a plunge and it is supposed that he was seized with cramps and drowned. The body was discovered by F. W. Gold and medical aid summoned, but it was too late. Mr. Martin left a wife and one child.

## WAGON KILLED CHILD.

Wheel Crushed Out Youngster's Life at Worcester, Mass.

Worcester, Mass., July 8.—Christopher Setaro, aged 5, of 34 Larkin street was instantly killed last night, when the rear wheel of a beer wagon owned by the Worcester Brewing company, in charge of Isidor Tevelli of 61 Fairmont street, passed over the child's head.

The boy was playing on the sidewalk near the corner of Larkin and Shrewsbury streets, when he was suddenly attracted by something across the street. Rumping in place away from his companions, he dashed directly in the path of the outfit and fell under the wheel. The driver was unaware of the child's presence until after the accident.

The police ambulance was summoned, and after an examination police surgeon Richard J. Shanahan announced that the child had been killed instantly.

The police held Tevelli blameless for the accident.

Weather Forecast:

Fair to-night in interior. Wednesday fair and warmer; light to moderate variable winds.

NEW VICTIM  
OF AIR FLIGHT

Lieutenant Loren H. Call of United States Aviation Corps

WAS KILLED TO-DAY  
NEAR HOUSTON, TEX.

Aeroplane Collapsed as He Started on a Flight

Houston, Tex., July 8.—Lieutenant Loren H. Call of the United States aviation corps was killed to-day by the collapse of his aeroplane at a point north of Texas City. Lieut. Call had started a flight from the aviation field in the second army division of the mobilization camp.

## BABY KILLED AT PLAY.

The Gun Was in Hands of 11-Year-Old Uncle.

Melrose, Mass., July 8.—Norman H. LeFave, 7-month-old son of Mr. and Mrs. LeFave, of 22 Waverly place, died last night at the Melrose hospital as the result of a shot from a revolver in the hands of Burness E. LeFave, his 11-year-old uncle, shortly after noon yesterday.

The bullet entered the lower side of the infant's jaw, passed upward through the face, pierced the skull and lodged in the ceiling.

An operation was performed as a last resort to save the life of the child, but from the first scarcely any hope of the victim's recovery was held.

The shooting occurred at the home of the LeFave family while Burness LeFave was playing in an upstairs room with his baby nephew. Burness found a revolver belonging to his brother, William, in a closet in the room and he brought it out to show the baby. Last week he played with the revolver and at that time the weapon was unloaded. Since that time cartridges had been placed in it, unknown to young Burness and he handled the weapon in a careless manner to the delight of the baby.

A short time later, Burness placed the muzzle of the revolver to the face of the child, and, not knowing it contained cartridges, pulled the trigger. There was a report and with a scream the baby fell back with blood streaming from his face.

Burness ran from the room crying, and told his aunt, Mrs. LeFave, what he had done. The cries of the baby's mother brought neighbors, who ran to the house, and the baby was found on the floor unconscious. Dr. E. L. Marr was summoned and the infant was taken to the Melrose hospital, where the unsuccessful operation was made to save its life.

## GOODFELLOW—BERRY.

Barre Merchant and Montpelier Young Woman United in Marriage.

The wedding of Miss Charlotte Pearl Berry, a well known Montpelier young woman, to Curtis W. Goodfellow, son of Mr. and Mrs. W. H. Goodfellow of Spaulding street, this city, took place at the home of the bride's sister, Mrs. E. R. Plaisted, 11 Cliff street, Montpelier, this forenoon at 10 o'clock. Rev. Stanley F. Blomfield, pastor of Bethany church, performing the ceremony. The couple were unattended by the single service was used. Only the parents of the groom and near relatives of the bride were present at the ceremony. The parlor, where the wedding was held, was artistically decorated with ferns, sweet peas and daisies. The bride wore a charming gown of white shadow lace over white messaline. Following the ceremony, a wedding lunch was served in the dining room, which was trimmed with buttercups and sweet peas.

The bride has been connected with the McCuen store for the past seven years, three of which were passed as cashier, while during the last four years she was employed as a clerk and buyer. She has many friends in Montpelier and elsewhere. Mr. Goodfellow is the junior member of the firm of W. H. Goodfellow & Son, who conduct a jewelry store and optician's parlor at 211 North Main street, this city. Mr. and Mrs. Goodfellow left today on a ten days' wedding trip and upon their return they will be at home, 15 East street, Barre, until July 20.

## VENNER—MERRILL.

Barre Young Man and Keene, N. H., Girl Married.

Thomas W. Venner, son of Mr. and Mrs. Thomas G. Venner of this city, and Miss Rena Merrill, daughter of Mr. and Mrs. George A. Merrill of Keene, N. H., were married at the Episcopal rectory at Keene, Tuesday morning, June 1. Mr. and Mrs. Venner left immediately after the marriage on a wedding trip to Boston, Nantasket, Mass., and Newport, R. I. They arrived in Barre yesterday morning. At present they will reside at 31 Keith avenue. Mr. Venner is well known in Barre, where he resided until a few months ago, then going to Cape Ann, Mass., and later to Keene, N. H., where he was engaged in his occupation as a granite cutter. Miss Merrill is one of Keene's popular young ladies.

## FINED ON OLD OFFENSE.

Manuel Villa of Barre Arraigned in Montpelier Court.

Manuel Villa of Barre was arraigned before Judge Harvey in Montpelier city court on an old charge of breach of the peace, to which he pleaded guilty and was fined \$25, with costs of \$33.85. He said the state alleged that the offense was committed last October.

William Dohy also was before the Montpelier court on the charge of intoxication, subsequent offense, to which he pleaded guilty. He was fined \$5, with costs of \$5.84. Judge Harvey then suspended the payment of the fine and allowed Dohy to sign the pledge.

BIG PAVING JOB  
STARTED TO-DAY

North Main Street, from Granite to Blackwell, to Be Laid with Granite Blocks at Total Cost of \$22,000.

Daniel O'Connell, of the firm of Daniel O'Connell & Sons of Holyoke, Mass., with a gang of sixteen Holyoke laborers and as many more from Barre, began work this morning on the city's \$22,000 paving contract on North Main street. The start was made at the Granite street intersection, where the work was left off last year. For the coming few weeks it is expected that the work will be pursued wholly on the east side of the street as it is the contractor's purpose to complete one side of the street before starting on the opposite side. Much of the equipment necessary in preparing the street for the paving has already been brought from Holyoke and is expected to be in the city in a few days. The city's appropriation will cover paving as far as Blackwell

According to the contract signed by the city and the contractor, the work is to be completed by October, although the contractor today expressed a belief that it would be finished before that time. The city is to assume \$9,000 as its share of the expense, the remainder to be borne by the Barre & Montpelier Traction & Power Co., and the abutting landowners. The contract includes the following specifications: Excavations for the city, 2,000 cubic yards; excavations for the traction company, 700 cubic yards; concrete for the city, 1,000 cubic yards; concrete for the traction company, 420 cubic yards; paving for the city, 5,800 square yards; paving for the traction company, 1,700 square yards.

The following scale of prices are also named in the contract: (1) For excavating and preparing sub grade, all of which is two feet or more outside the rails of the traction company, at 65¢ per cubic yard; (2) for excavating and preparing sub grade all of which is included between two lines, two feet outside of the rails of the traction company, at 65¢ per cubic yard; (3) for laying concrete according to specifications and plans, all of which is to be laid more than two feet outside the rails of the traction company, at \$4.80 per cubic yard; (4) for laying concrete according to said specifications and plans, all of which is to be laid inside of two lines, two feet outside the rails of the traction company, at \$4.80 per cubic yard; (5) for paving and doing all the work in connection therewith, according to said specifications and plans for that portion of the street which is two feet or more outside the rails of the traction company, at \$1.90 per square yard; (6) for paving and doing all the work in connection therewith, according to said specifications for that portion of the street which is two feet or more outside of the traction company rails, at \$1.95 per square yard.

In its agreement the city insists that only expert paving layers be employed in placing the paving blocks.

## HAS FAITH IN BEATTIE CURE.

Graniteville Man Believes It Has Helped Him Already.

Joseph Sutor of Graniteville, a brother of Secretary Fred S. Sutor of the Quarryworkers' International association, is passing a week at his home, after having submitted to treatment for a tubercular affection by Dr. William J. Beattie, a well known Littleton, N. H., physician. The Barre patient firmly believes that the methods employed by Dr. Beattie have already helped him, and he is confident that the efficacy of the Friedman cure, so-called, have been rather profoundly impressed by the progress made in several cases under the care of the New Hampshire physician.

After commenting optimistically on his own condition, Mr. Sutor said today: "A message of hope for consumptives everywhere is brought from Germany by Dr. Beattie, who says he has been the day long curing when turtle culture will cure even advanced cases of tuberculosis. After specializing in tubercular disease for a number of years, in a manner quite apart from his regular practice, Dr. Beattie became interested in Dr. Friedman and his methods, and last fall he sailed for Germany to learn all he could about the new cure."

Quoting Dr. Beattie, Mr. Sutor said: "Tubercle bacillus, properly administered, is of great worth to the world at large, but it is not by any means a cure-all." "The doctor," continues Mr. Sutor, "is positive about that and adds that in the hands of unprincipled practitioners, it can often do more harm than good. Dr. Beattie does not believe in deceiving those who apply to him for help and he has refused to accept patients who have gone beyond the first stages of consumption, whether of the lungs or of the bone."

Dr. Beattie told his Barre patient that the use of the turtle bacillus is still in its infancy, although he expresses a hope that the day will come when it will be possible to cure even the most advanced cases. Speaking of the German physician accredited with the discovery of the serum, he says: "Dr. Friedman's attitude has aroused intense antagonism in Berlin as well as in this country because of the spirit of commercialism which was in evidence during his stay in America. Whom the devil has reached an advanced stage, it is practically useless to inject the serum, yet, according to reports, Dr. Friedman has done this in a number of cases." The Littleton physician states that Dr. Poirkovski of Berlin is the real discoverer of the turtle bacillus for tuberculosis. To emphasize his faith in the method, he continues by saying that he is convinced that the serum will effect a permanent cure in most cases when the disease has not reached its second stage.

## PROMINENT ORANGE CITIZEN.

George J. Cook Died This Morning of Shock.

Orange, July 8.—George J. Cook, one of the oldest and most respected citizens of this town, died about one o'clock this morning, the cause of death being a shock.

Warrants read and ordered paid for the month were as follows: B. W. Hooker & Co., \$33.55, furniture, assessing taxes and city buildings accounts; F. E. Langley, printing, \$80.04, assessing taxes, streets, water, miscellaneous, city buildings, fire, health, election, dog license accounts; James Mackay, \$140.40, school and blind census and making returns, assessing taxes and miscellaneous accounts; E. L. Scott, legal services as city attorney, \$161.37, assessing taxes, streets, permanent streets, water, miscellaneous, poor, health, police and dog license accounts; Vt. Tel. & Tel. Co., \$30.94, telephone, assessing taxes, miscellaneous and police accounts; city treasurer, \$124.80, each paid out on order of street superintendent, streets, permanent streets, sidewalks, sewer, surface sewer, bridges and culverts accounts; R. L. Clark, \$126.24, supplies, streets, permanent streets, surface sewers, sidewalks, fire accounts; engineer-
